

DECLARATIVE PIPELINE

Sample:

```
pipeline {
  agent any
  stages {
    stage('Source code') {
      steps {
        echo 'Fetching code from github'
      }
    }
    stage('Build') {
      steps {
        echo 'Building.. This is the build phase'
      }
    }
    stage('Test') {
      steps {
        echo 'Testing.. This is the testing phase'
      }
    }
    stage('Deploy') {
      steps {
        echo 'Deploying.... This is the deployment phase'
      }
    }
  }
}
```

```
    }  
  }  
}
```

Integration of git and maven

```
pipeline {  
  agent any  
  stages {  
    stage('Source code') {  
      steps {  
        git branch: 'main', url: 'https://github.com/Sushmagowdaaa/maven_Project.git'  
      }  
    }  
    stage('Build') {  
      steps {  
        build 'maven-job'  
      }  
    }  
    stage('Test') {  
      steps {  
        echo 'Testing.. This is the testing phase'  
      }  
    }  
    stage('Deploy') {
```

```
steps {  
    echo 'Deploying... This is the deployment phase'  
}  
}  
}
```
